Revenue	\$418	\$398	5%	3%
EBITDA	\$8	(\$2)	>100%	
EBIT	(\$11)	(\$19)	43%	

Revenue grew over prior year despite a tough comparison. EBIT and EBITDA benefited largely from Cross Border services and lower bad debt expense.

Presort Services

		Secon	d Quarter	
(\$ millions)	2021	2020	% Change Reported	% Change Ex Currency
Revenue	\$135	\$118	14%	14%
EBITDA	\$23	\$20	12%	
EBIT	\$16	\$13	28%	

Revenue grew across all mail classes and benefited from an easier prior year comparison. EBIT and EBITDA improved from prior year largely due to the revenue growth and higher gross margin.

SendTech Solutions

		Secon	d Quarter	
(\$ millions)	2021	2020	% Change Reported	% Change Ex Currency
Revenue	\$346	\$321	8%	6%
EBITDA	\$115	\$113	1%	
EBIT	\$107	\$104	3%

Full Year 2021 Expectations

The Company's full year 2021 expectations remain in-line with its previous communications. The Company continues to expect annual revenue to grow in the low-to-mid single digit range. The Company continues to expect adjusted EPS to grow over prior year driven largely by the improvement in Global Ecommerce, which is expected to be EBITDA positive for the full year. More specifically, adjusted EPS is expected to be in the range of \$0.35 to \$0.42. The Company also continues to expect lower free cash flow as compared to prior year primarily due to certain items that benefited 2020 and are not expected to continue at the same level in 2021.

Use of Non-GAAP Measures

The Company's financial results are reported in accordance with generally accepted accounting principles (GAAP); however, in its disclosures the Company uses certain non-GAAP measures, such as adjusted earnings before interest and taxes (EBIT), adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), adjusted earnings per share (EPS), revenue growth on a constant currency basis and free cash flow.

The Company reports measures such as adjusted EBIT, adjusted EBITDA and adjusted EPS to exclude the impact of items like discontinued operations, restructuring charges, gains, losses and costs related to acquisitions and dispositions, asset impairment charges, goodwill impairment charges and other unusual or one-time items. Such items are often inconsistent in amount and frequency and as such, the Company believes that these non-GAAP measures provide investors greater insight into the underlying operating trends of the business.

In addition, revenue growth is presented on a constant currency basis to exclude the impact of changes in foreign currency exchange rates since the prior period under comparison. Constant currency is calculated by converting the current period non-U.S. dollar denominated revenue using the prior year's exchange rate for the comparable quarter. We believe that excluding the impacts of currency exchange rates provides investors a better understanding of the underlying revenue performance. A reconciliation of reported revenue to constant currency revenue can be found in the attached financial schedules.

Free cash flow adjusts GAAP cash from operations for cash flows of discontinued operations, capital expenditures, restructuring payments, changes in customer deposits held at the Pitney Bowes Bank, transaction costs and other special items. The Company reports free cash flow to provide investors insight into the amount of cash that management could have available for other discretionary uses. A reconciliation of GAAP cash from operations to free cash flow can be found in the attached financial schedules.

Segment EBIT is the primary measure of profitability and operational performance at the segment level and is determined by deducting from segment revenue the related costs and expenses attributable to the segment. Segment EBIT excludes interest, taxes, general corporate expenses not allocated to a particular business segment, restructuring charges and other unusual or one-time items, which are recognized on a consolidated basis. The Company also provides segment EBITDA, which further excludes depreciation and amortization expense for the segment, as an additional useful measure of segment profitability and operational performance. A reconciliation of segment EBITDA to net income can be found in the attached financial schedules.

Complete reconciliations of non-GAAP measures to comparable GAAP measures can also be found at the Company's web site: www.pb.com/investorrelations

This document contains "forward-looking statements" about the Company's expected or potential future business and financial performance. Forward-looking statements include, but are not limited to, statements about future revenue and earnings guidance and future events or conditions. Forward-looking statements are not guarantees of future performance and involve risks and uncertainties that could cause actual results to differ materially from those projected. In particular, we continue to navigate the impacts of the Covid-19 pandemic (Covid-19), including its effects on the cost and availability of labor and transportation and global supply chains. Other factors which could cause future financial performance to differ materially from expectations, and which may also be exacerbated by Covid-19 or a negative change in the economy, include, without limitation: declining physical mail volumes; changes in postal regulations or the operations and financial health of posts in the U.S. or other major markets or changes to the broader postal or shipping markets; the loss of, or significant changes to, our contractual relationships with the United States Postal Service (USPS) or USPS' performance under those contracts; our ability to continue to grow and manage volumes, gain additional economies of scale and improve profitability within our Global Ecommerce and Presort Services segments; changes in labor and transportation availability and costs; third-party suppliers' ability to provide products and services required by us and our clients; competitive factors, including pricing pressures, technological developments and the introduction of new products and services by competitors; the loss of some of our larger clients in our Global Ecommerce and Presort Services segments; expenses and potential impacts resulting from a breach of security, including cyber-attacks or other comparable events; our success at managing customer credit risk; and other factors as more fully outlined in the Company's 2020 Form 10-K Annual Report and other reports filed with the Securities and Exchange Commission. Pitney Bowes assumes no obligation to update any forward-looking statements contained in this document as a result of new information, events or developments.
