Pitney Bowes Announces Early Paydown of Remaining 2028 Oaktree Notes

Expects to Report FY2024 Revenue Within Guidance Range and Adjusted EBIT Above Guidance Range

Continued Progress Stems from Management's Focus on Efficiency, Execution and Financial Strength

STAMFORD, Conn.—(BUSINESS WIRE)—Pitney Bowes Inc. (NYSE: PBI) (“Pitney Bowes” or the “Company”), a technology-driven company that provides SaaS shipping solutions, mailing innovation, and financial services to clients around the world, announced that today it is paying off the remaining balance of approximately \$97 million in senior secured notes (“2028 Notes”) issued to Oaktree Capital Management, L.P. (collectively with its affiliates, “Oaktree”) in July 2023. The repayment, which is being funded by cash on hand, is part of the Company’s previously announced strategic initiative to deleverage its balance sheet. Retiring the 2028 Notes positions Pitney Bowes to benefit from increased capital allocation flexibility as it continues to evaluate value-enhancing actions.

Pitney Bowes also announced that it expects to report full year 2024 results within its previously announced revenue guidance range and beat Adjusted EBIT guidance as outlined in its third quarter 2024 financial results reported in November. The anticipated outperformance relative to prior Adjusted EBIT guidance is driven by better-than-expected business performance and non-essential cost cuts that had been conservatively forecasted to materialize in fiscal year 2025.

Lance Rosenzweig, Pitney Bowes’ Chief Executive Officer, commented:

“Our Board of Directors and management team are fully focused on efficiency, execution and financial strength as we enter the next phase of Pitney Bowes’ transformation into a stronger, more streamlined enterprise. Our strengthened balance sheet, driven by our swift execution of cost out and cash optimization work streams, and our conviction in the Company’s opportunities going forward give us confidence to repay the 2028 Notes early. Our anticipated beat on Adjusted EBIT for 2024 is the result of outperformance in our business as well as faster-than-expected realization of cost cuts and efficiency measures – some of which were one-time in nature – during the final months of the year. As I begin my first full fiscal year as CEO, I am looking forward to discussing our results and thoughtfully prepared outlook on next month’s earnings call.”

The Company will release fourth quarter and full-year 2024 earnings results after market close on Tuesday, February 11, 2025. The Company will host an investor conference call at 5:00 p.m. ET on the same day to review its results. For those unable to participate during the live call, a recording will be made available on the Company’s website.
