Business Segment Reporting

SendTech Solutions

--

SendTech Solutions offers physical and digital mailing and shipping technology solutions, financing, services, supplies and other applications for small and medium businesses, retail, enterprise, and government clients around the world to help simplify and save on the sending, tracking and receiving of letters, parcels and flats.

Fourth Quarter				
(\$ millions)	2023	2022	% Change Reported	% Change Comparable Basis
Revenue	\$327	\$341	(4%)	(5%)
Adjusted Segment EBITDA	\$121	\$113	7%	
Adjusted Segment EBIT	\$113	\$106	7%	
Full Year				
(\$ millions)	2023	2022	% Change Reported	% Change Comparable Basis
Revenue	\$1,293	\$1,360	(5%)	(4%)
Adjusted Segment EBITDA	\$435	\$430	1%	
Adjusted Segment EBIT	\$405	\$401	1%	

EBIT and EBIT margin expansion in the fourth quarter was driven by improvements in gross margin, strong execution, and cost reduction actions.

Fourth quarter revenue decline was driven by a reduction in our meter base, timing of our product lifecycle, and a tough prior year compare in our shipping products. Recurring revenue from our shipping solutions grew 17 percent versus prior year and helped offset the decline.

Presort Services

Presort Services provides sortation services that enable clients to qualify for USPS workshare discounts in First Class Mail, Marketing Mail, Marketing Mail Flats and Bound Printed Matter.

Fourth Quarter			
(\$ millions)	2023	2022	% Change Reported
Revenue	\$163	\$158	3%
Adjusted Segment EBITDA	\$43	\$37	17%
Adjusted Segment EBIT	\$34	\$29	17%

	Full Year		
(\$ millions)	2023	2022	% Change Reported
Revenue	\$618	\$602	3%
Adjusted Segment EBITDA	\$145	\$110	31%
Adjusted Segment EBIT	\$111	\$82	35%

Presort delivered strong top and bottom-line performance. New sales and higher revenue per piece more than offset organic mail decline, driving revenue growth in the fourth quarter.

Adjusted Segment EBIT and EBITDA growth was driven by higher revenue and improved labor productivity from increased automation and process improvements.

Global Ecommerce

*Global Ecommerce provides business to consumer logistics services for domestic and cross-border delivery, returns and fulfillment.*

	Fourth Quarter			
(\$ millions)	2023	2022	% Change Reported	% Change Comparable Basis
Revenue	\$381	\$410	(7%)	(7%)
Adjusted Segment EBITDA	(\$3)	(\$6)	47%	
Adjusted Segment EBIT	(\$20)	(\$23)	14%	

  

	Full Year			
(\$ millions)	2023	2022	% Change Reported	% Change Comparable Basis
Revenue	\$1,355	\$1,576	(14%)	(6%)
Adjusted Segment EBITDA	(\$67)	(\$22)	>(100%)	
Adjusted Segment EBIT	(\$134)	(\$100)	(33%)	

Global Ecommerce experienced strong volumes during peak, processing 61 million domestic parcels in the fourth quarter, which is up 13 percent from fourth quarter 2022. Domestic parcel revenue grew 7 percent in the fourth quarter versus prior year, which was more than offset by a loss in revenue from cross-border.

Improved EBIT in the fourth quarter reflects the positive impact of cost actions, higher domestic parcel volumes, and increased network productivity. These benefits were partially offset by the decline in cross-border.

#### **Full Year 2024 Guidance**

We expect revenue growth to range from flat to a low-single digit decline and EBIT margins to remain relatively flat on a year-over-year basis.

We expect incremental benefit in 2024 from our company-wide cost reduction program as savings from actions taken in 2023 annualize and we further execute on the plan. We expect restoration of variable compensation and wage inflation to partially offset gains.

We also expect similar levels of capital expenditures in 2024 as in 2023 and interest expense to remain around the elevated rate incurred in Q4 2023.

## Use of Non-GAAP Measures

Our financial results are reported in accordance with generally accepted accounting principles (GAAP). We also disclose certain non-GAAP measures, such as adjusted earnings before interest and taxes (Adjusted EBIT), adjusted earnings before interest, taxes, depreciation and amortization (Adjusted EBITDA), adjusted earnings per share (Adjusted EPS), revenue growth on a comparable basis and free cash flow.

Adjusted EBIT, Adjusted EBITDA and Adjusted EPS exclude the impact of restructuring charges, goodwill impairment charges, foreign currency gains and losses on intercompany loans, gains, losses and costs related to acquisitions and dispositions, gains and losses on debt redemptions and other unusual items. Management believes that these non-GAAP measures provide investors greater insight into the underlying operating trends of the business.

We disclose revenue growth on a comparable basis, which excludes three items. First, the comparison excludes the impacts of foreign currency. Second, we are excluding the impact of the divestiture of the Borderfree business effective July 1, 2022. Third, we are excluding the impact of a change in the presentation of revenue beginning in the fourth quarter of 2022, from a gross basis to net basis due to an adjustment in terms of one of our contracts with the United States Postal Service. The change in revenue presentation impacts both our Global Ecommerce and SendTech Solutions segments. The change in revenue presentation does not impact gross profit. Management believes that excluding these items provides investors with a better understanding of the underlying revenue performance.

Free cash flow adjusts cash flow from operations calculated in accordance with GAAP for capital expenditures, restructuring payments and other special items. Management believes free cash flow provides investors better insight into the amount of cash available for other discretionary uses.

Adjusted Segment EBIT is the primary measure of profitability and operational performance at the segment level and is determined by deducting from segment revenue the related costs and expenses attributable to the segment. Adjusted Segment EBIT excludes interest, taxes, unallocated corporate expenses, foreign currency gains and losses on intercompany loans, restructuring charges, goodwill impairment, and other items not allocated to a business segment. The Company also reports Adjusted Segment EBITDA as an additional useful measure of segment profitability and operational performance.

Complete reconciliations of non-GAAP measures to comparable GAAP measures can be found in the attached financial schedules and at the Company's web site at [www.pb.com/investorrelations](http://www.pb.com/investorrelations).
